

# Copilot + PC

## Meet your new Superpower

The fastest, most intelligent Windows PC ever is here. Designed to turn your ideas from text prompts into generated artwork and search across time to find the content you need.

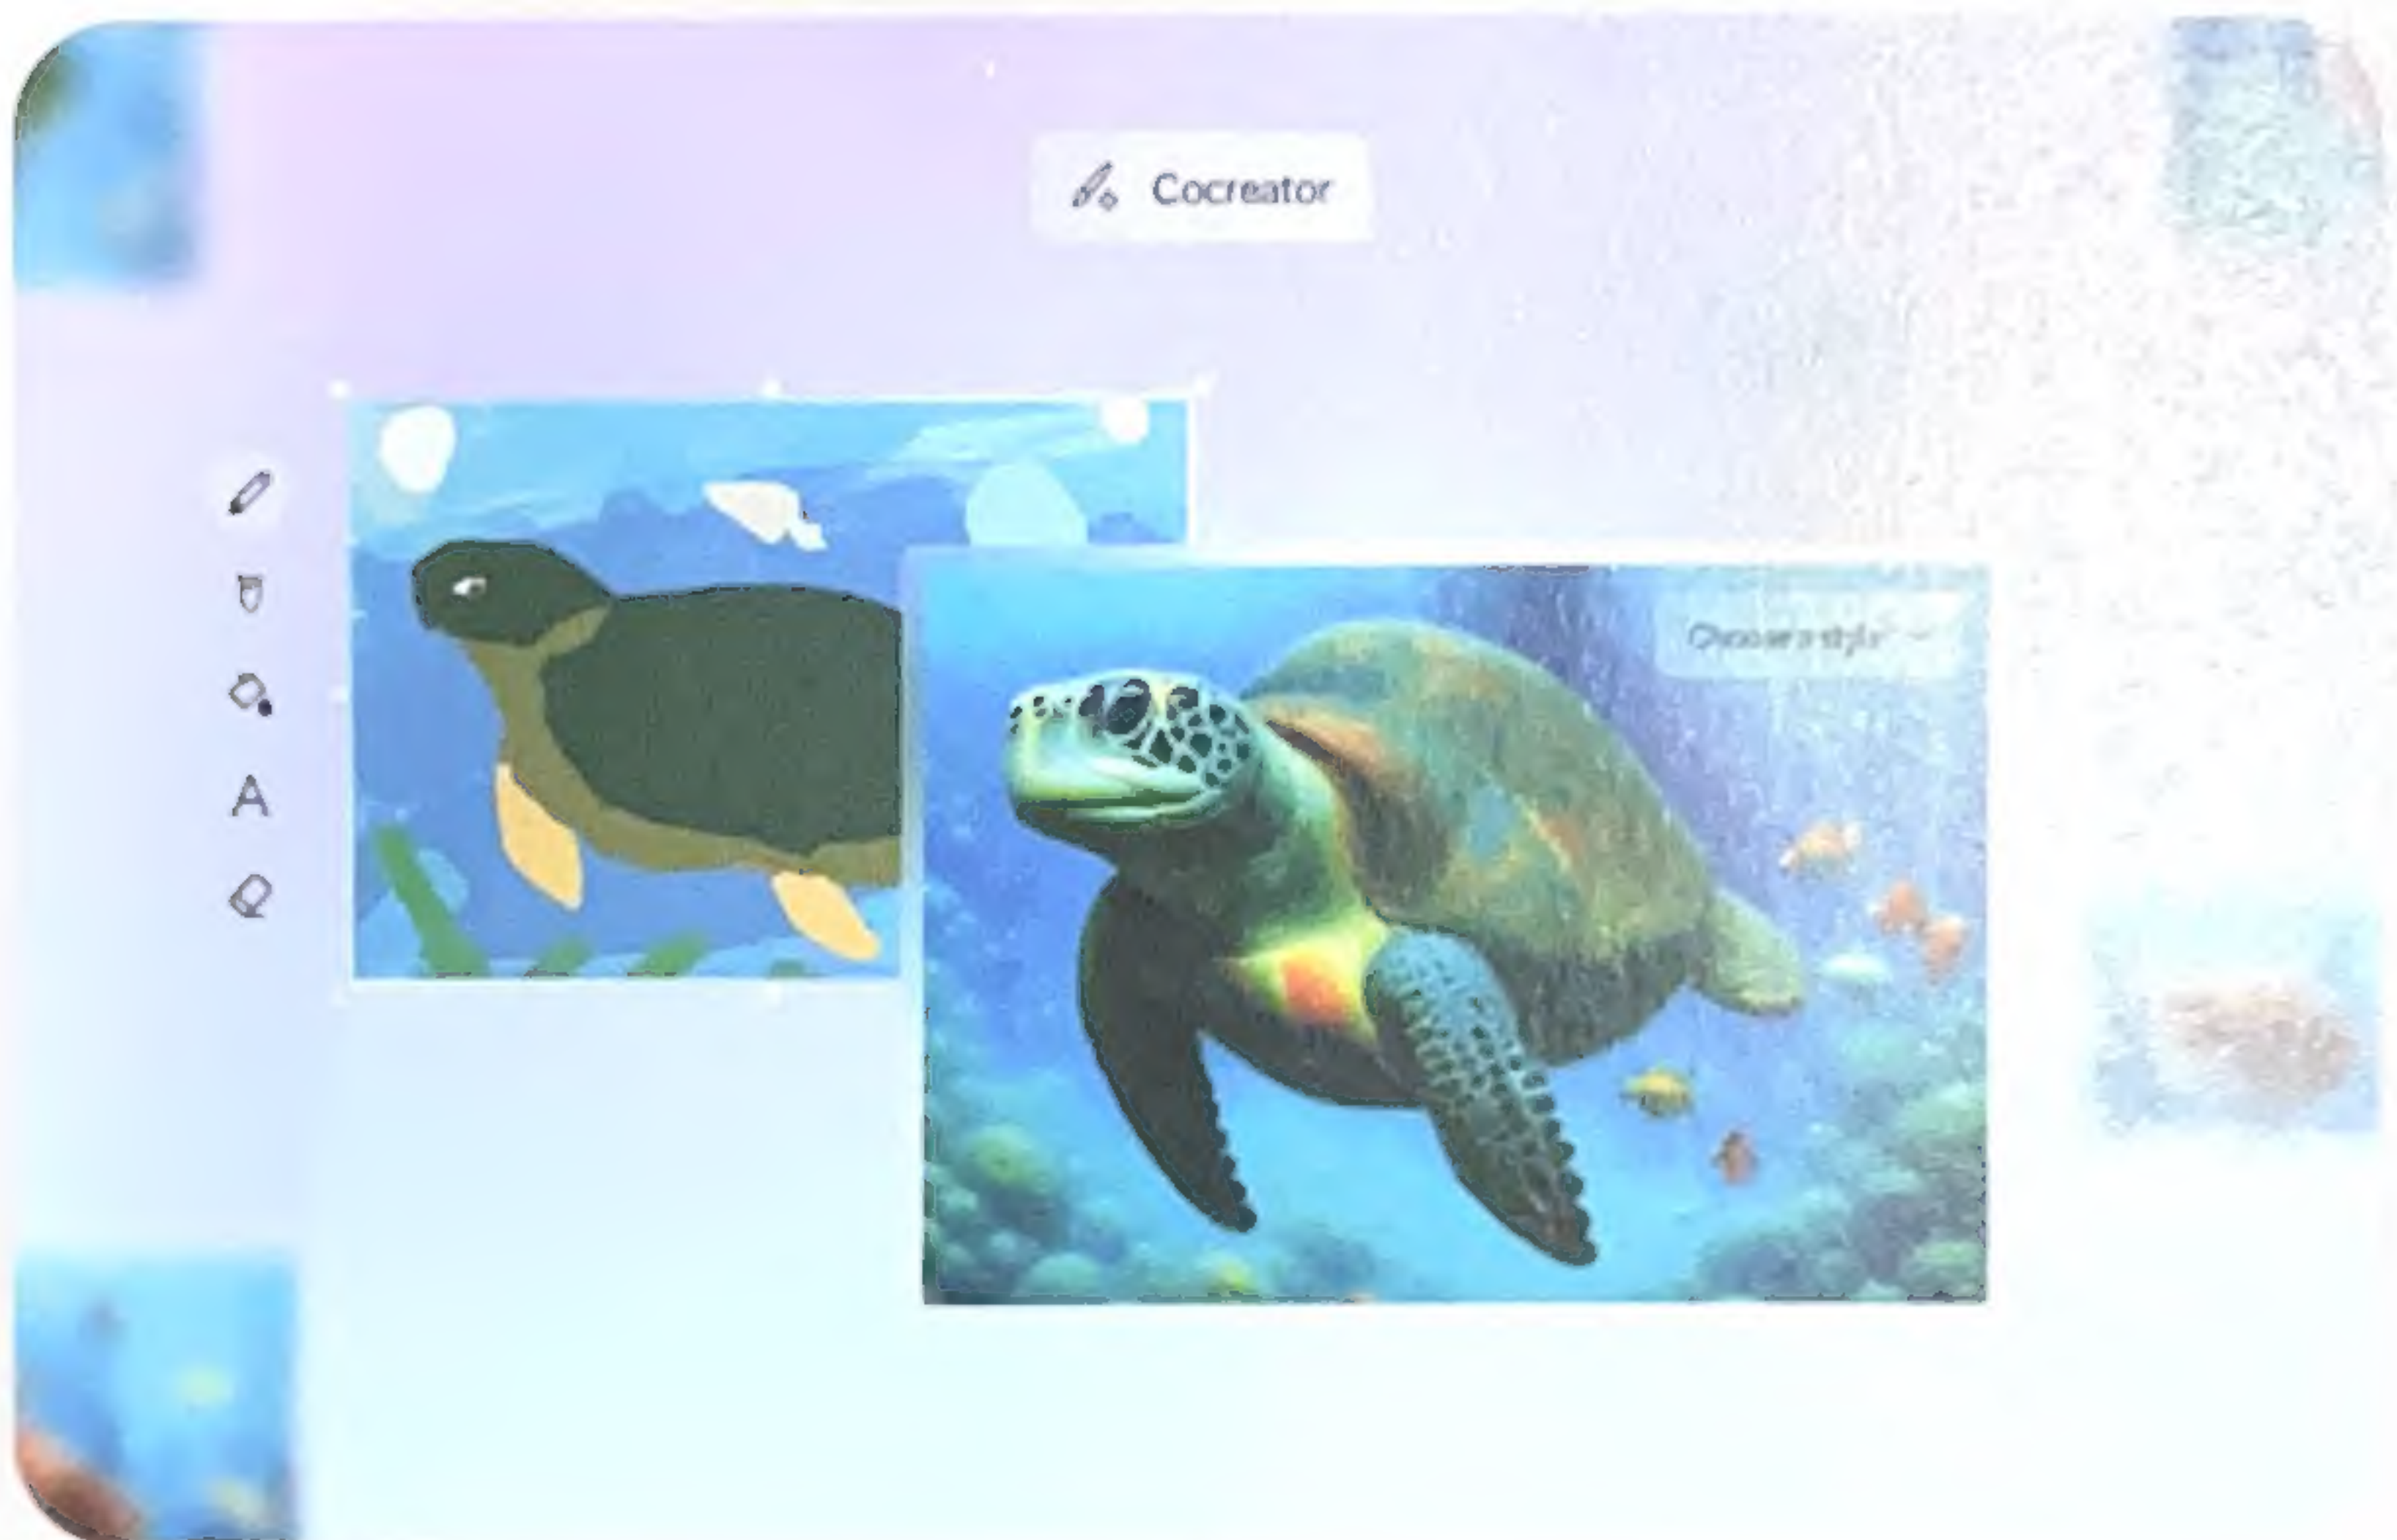

These are just two of the many tools that will transform how you use your PC.

**BEST BUY**

imagine that.

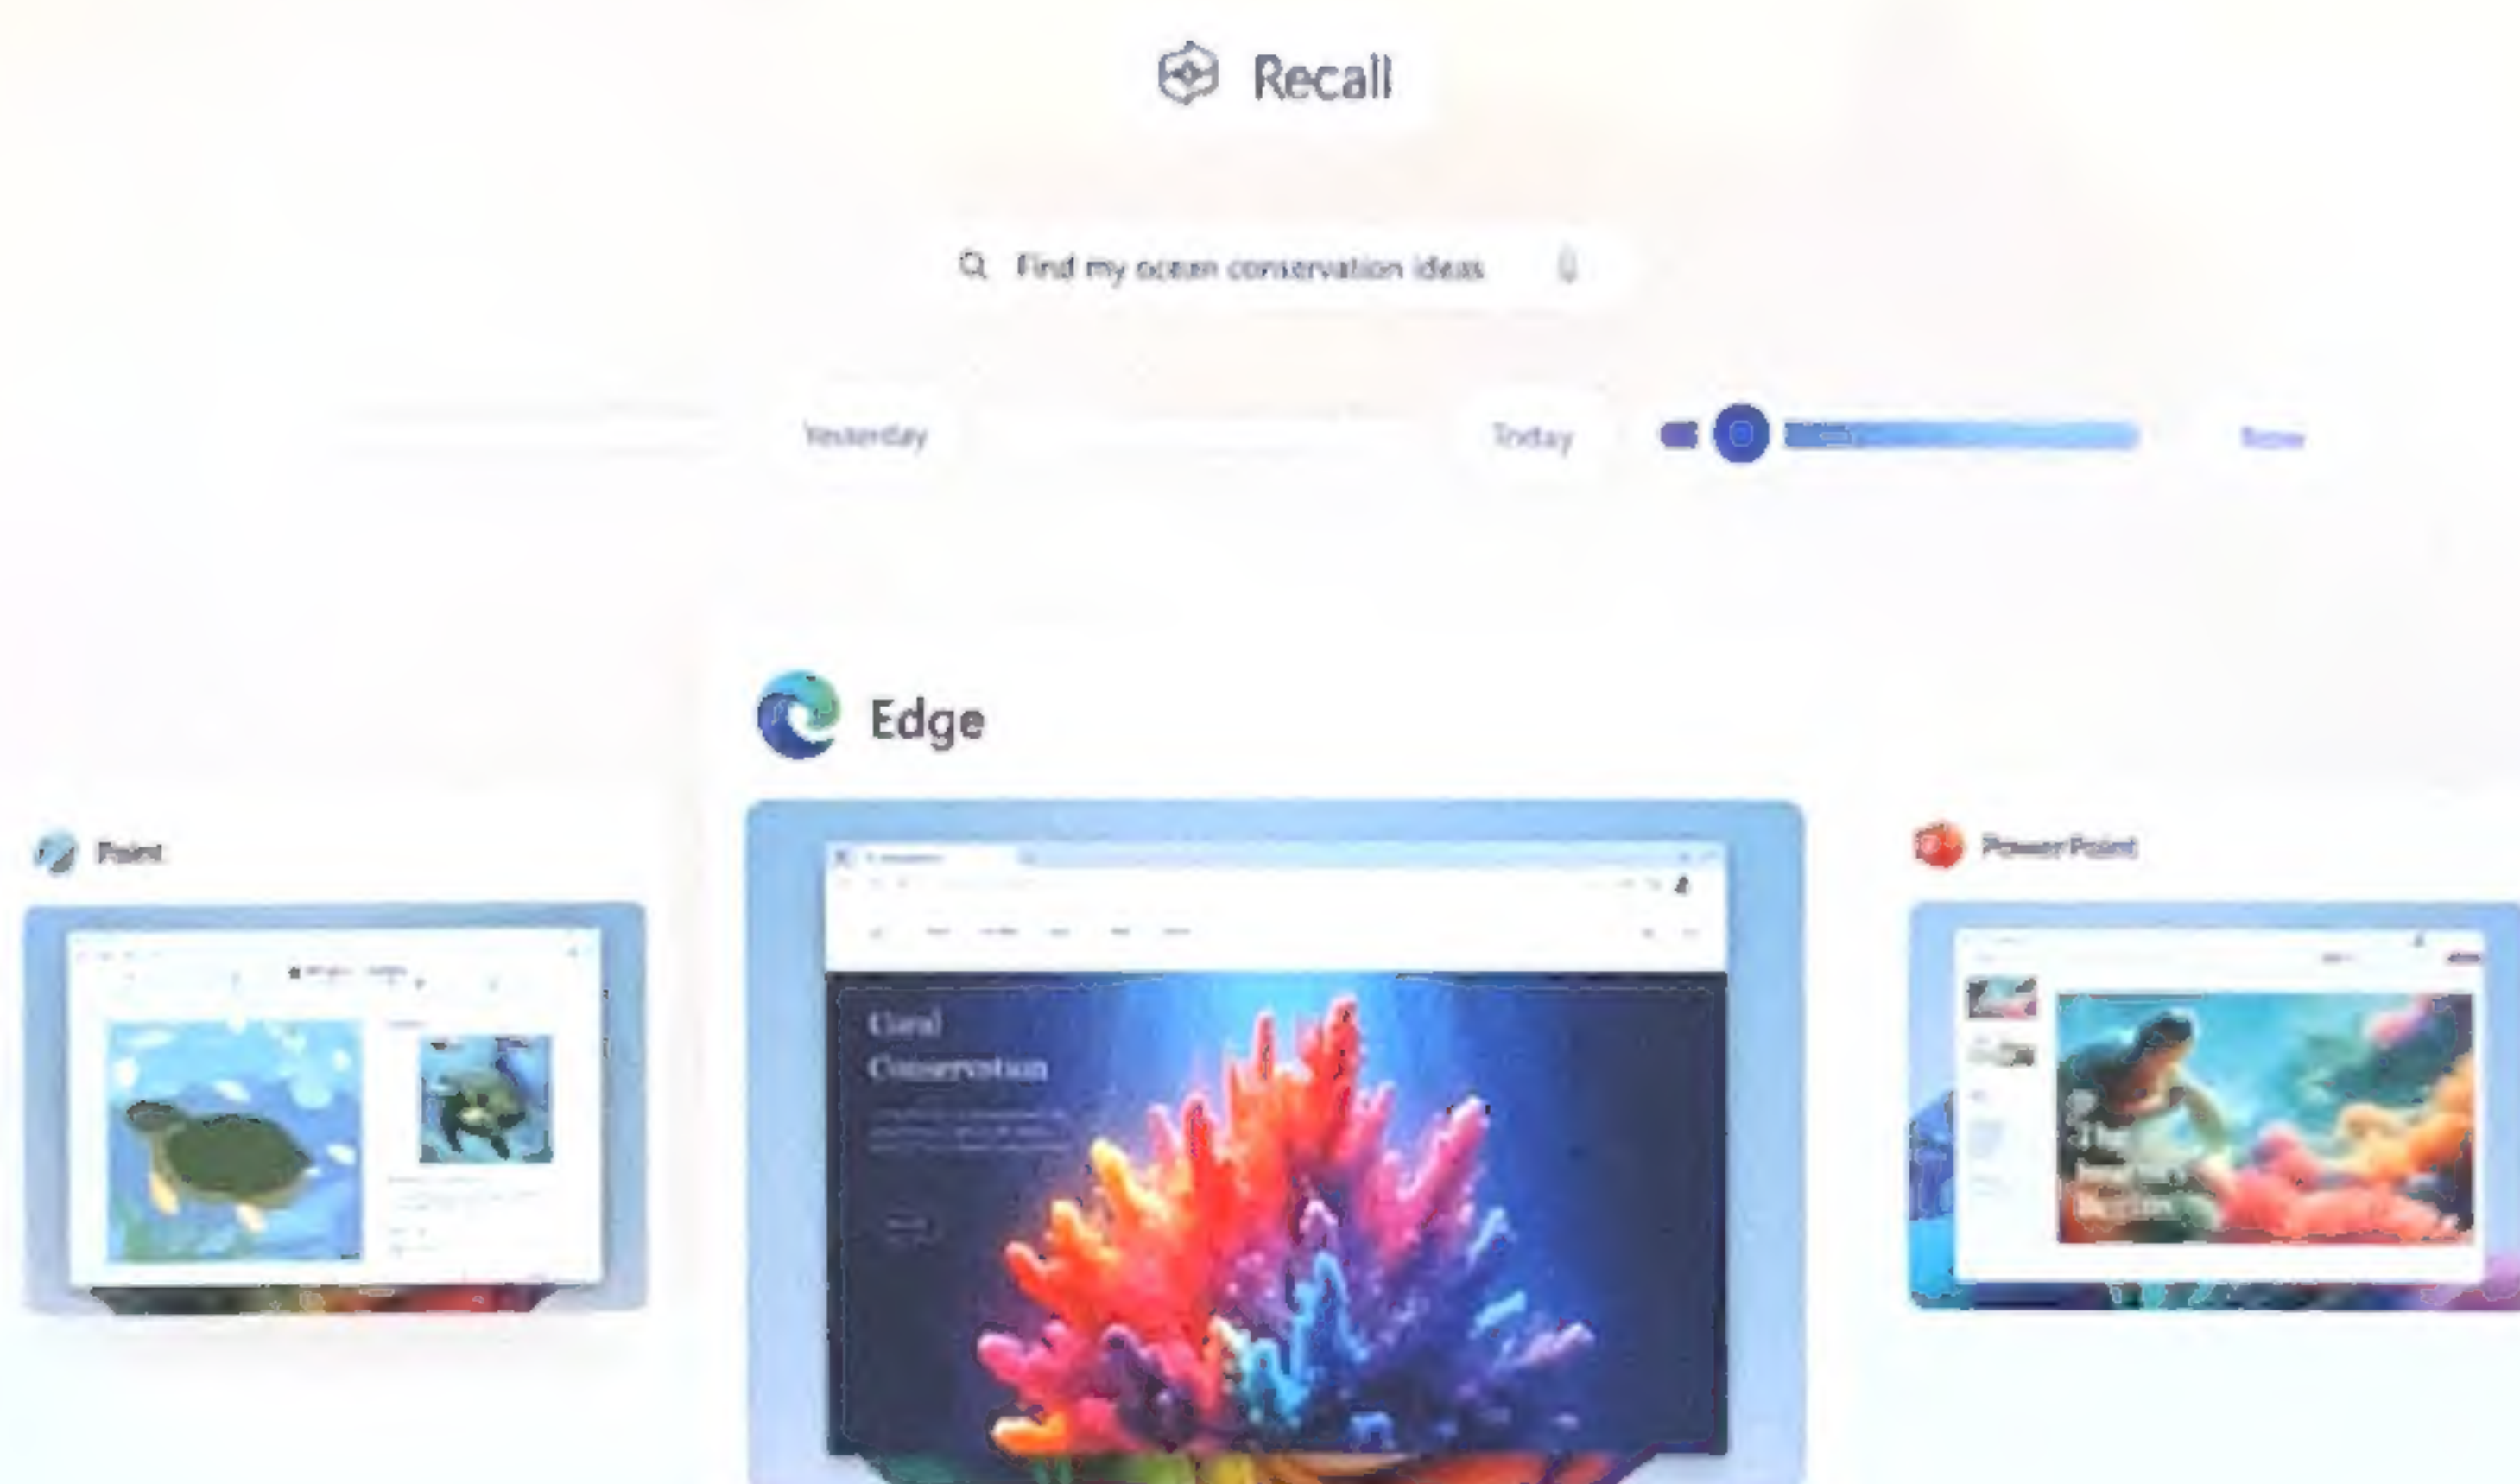

# Create with Live Cocreator

Everyone has an imagination and an ability to be an artist. Describe or draw your vision with text or image prompts and watch Live Cocreator generate an interpretation of it.

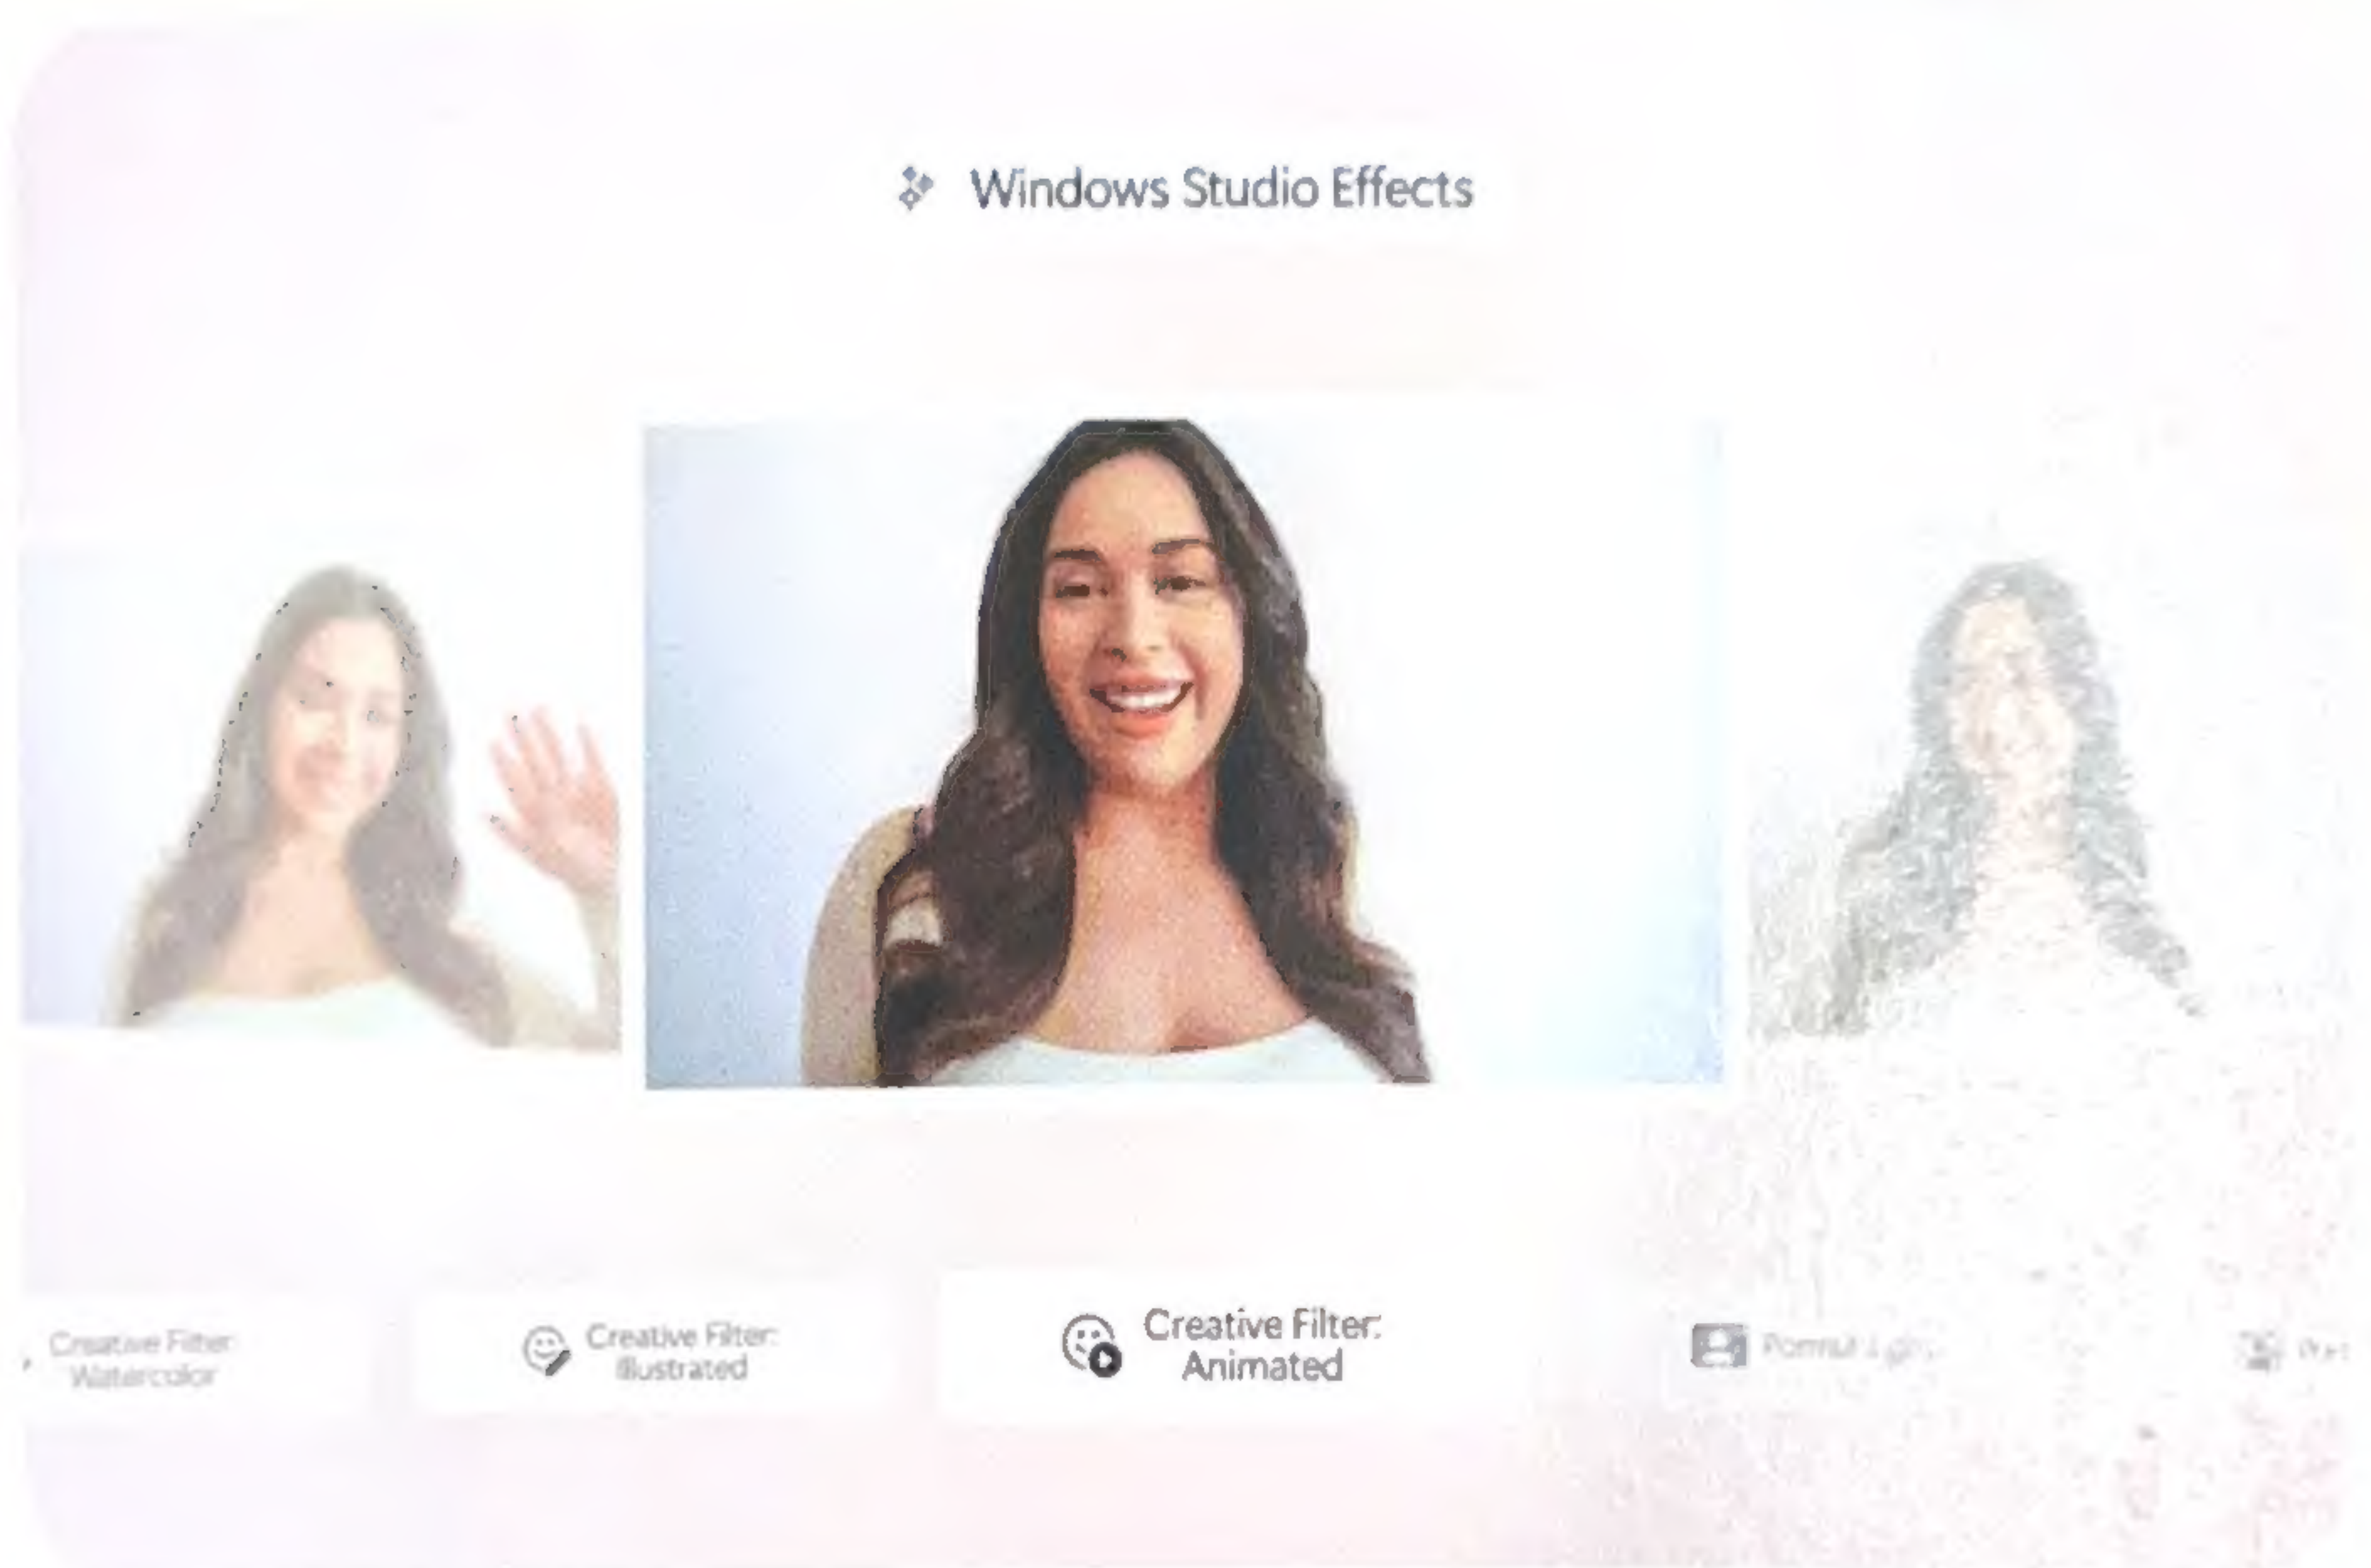

# Recall instantly

Searching for a document, email or web page on your PC can be time-consuming. Now you can just describe how you remember something and Recall will find it, instantly.

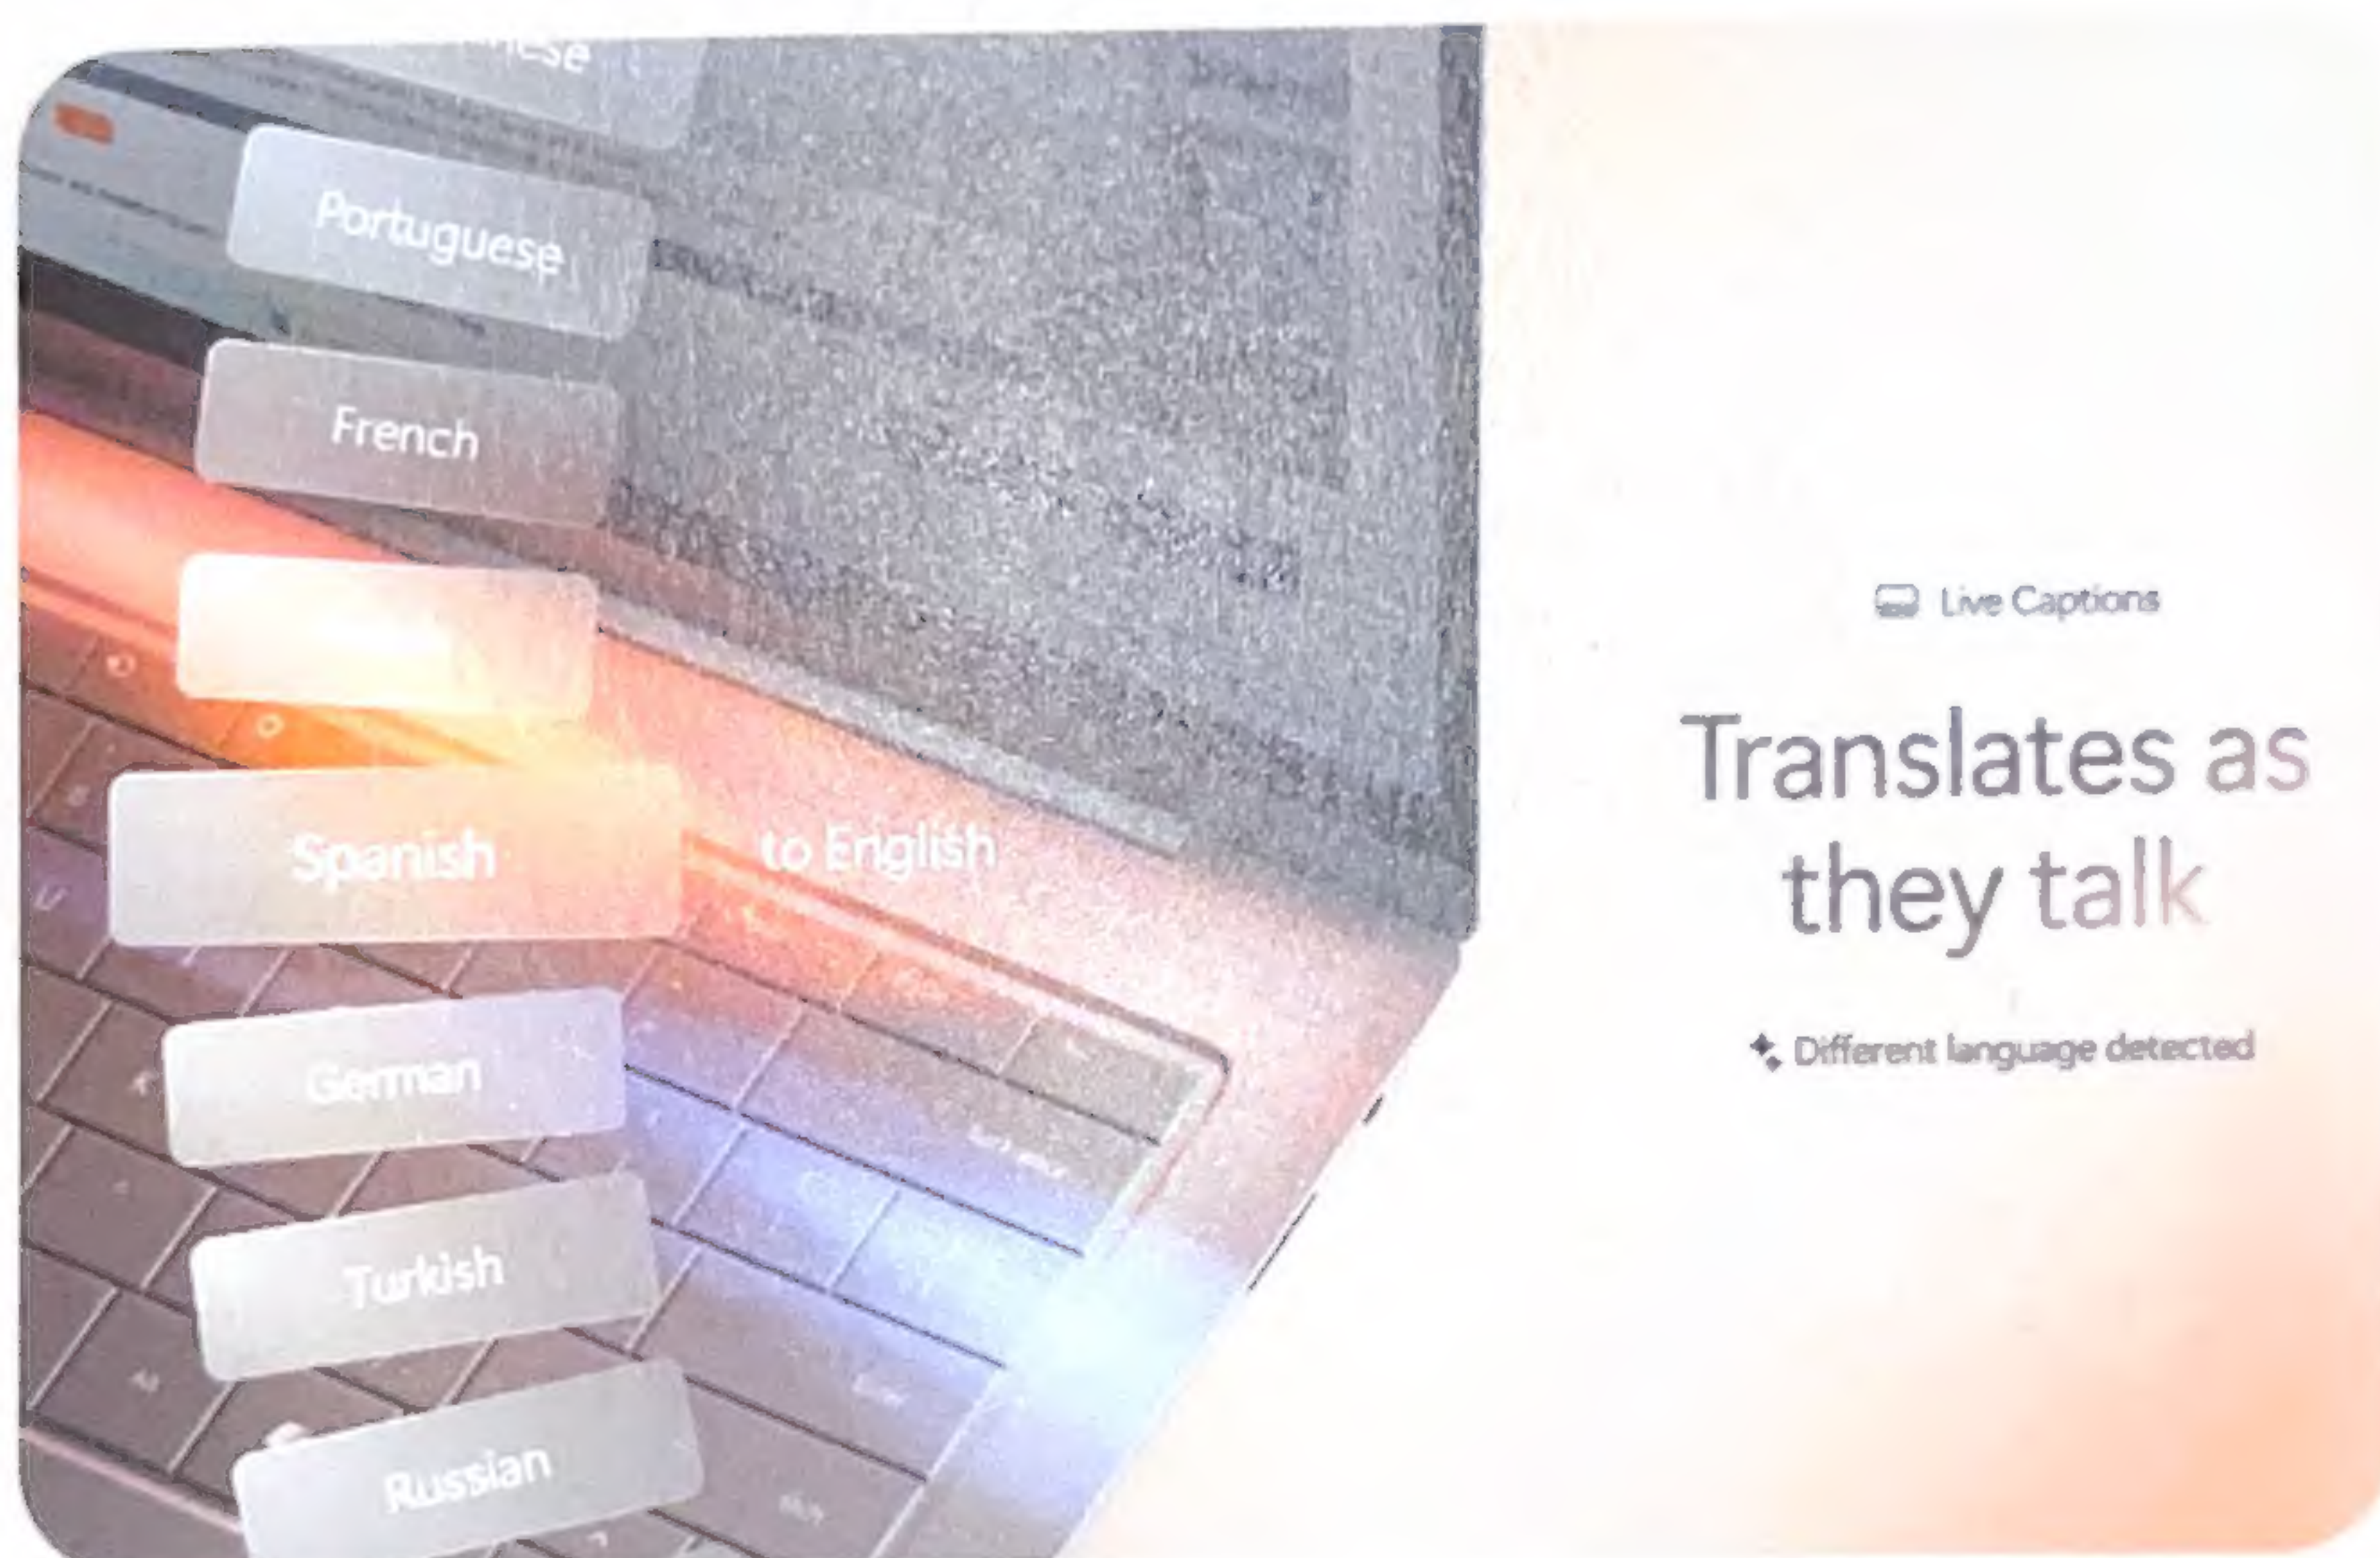

# Effects that enhance your calls

Improve lighting and blur distractions in the background during video calls. When presentation matters, turn on Windows Studio Effects.

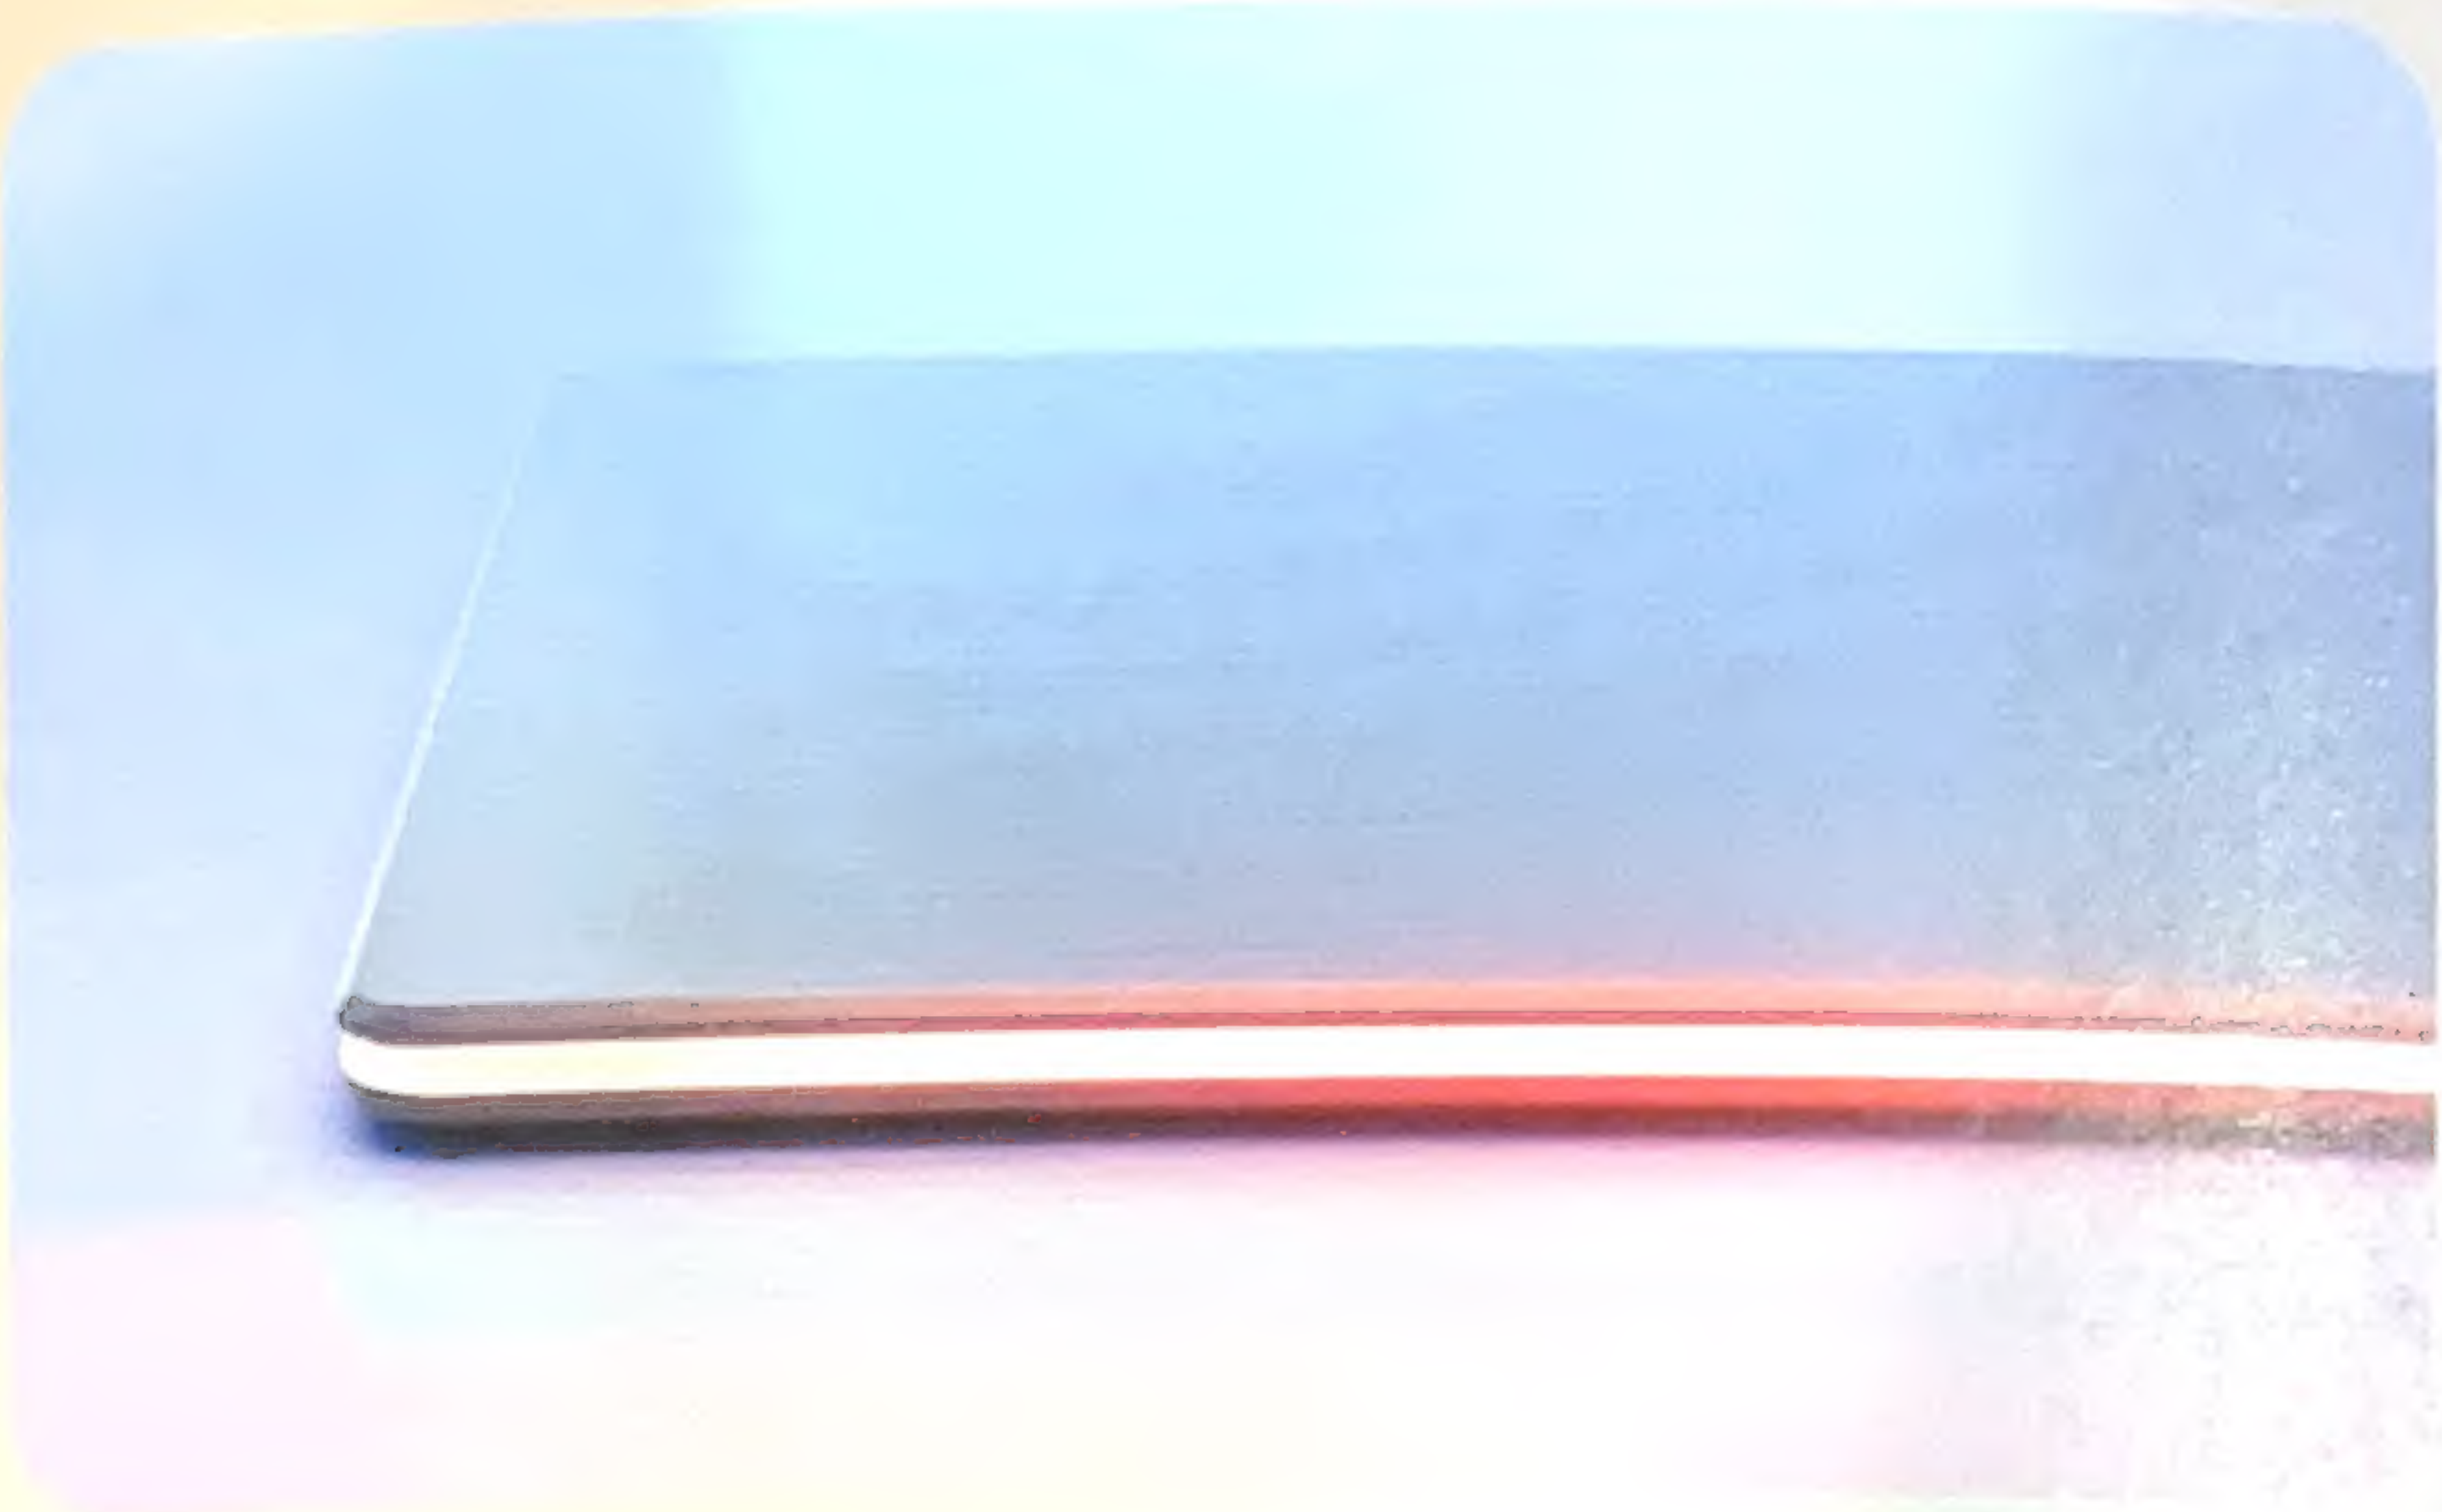

# Connect with Live Captions

When you never miss a word, you never miss a beat. Get accurate subtitles in real time with automatic Live Captions.

## Turbocharged NPU

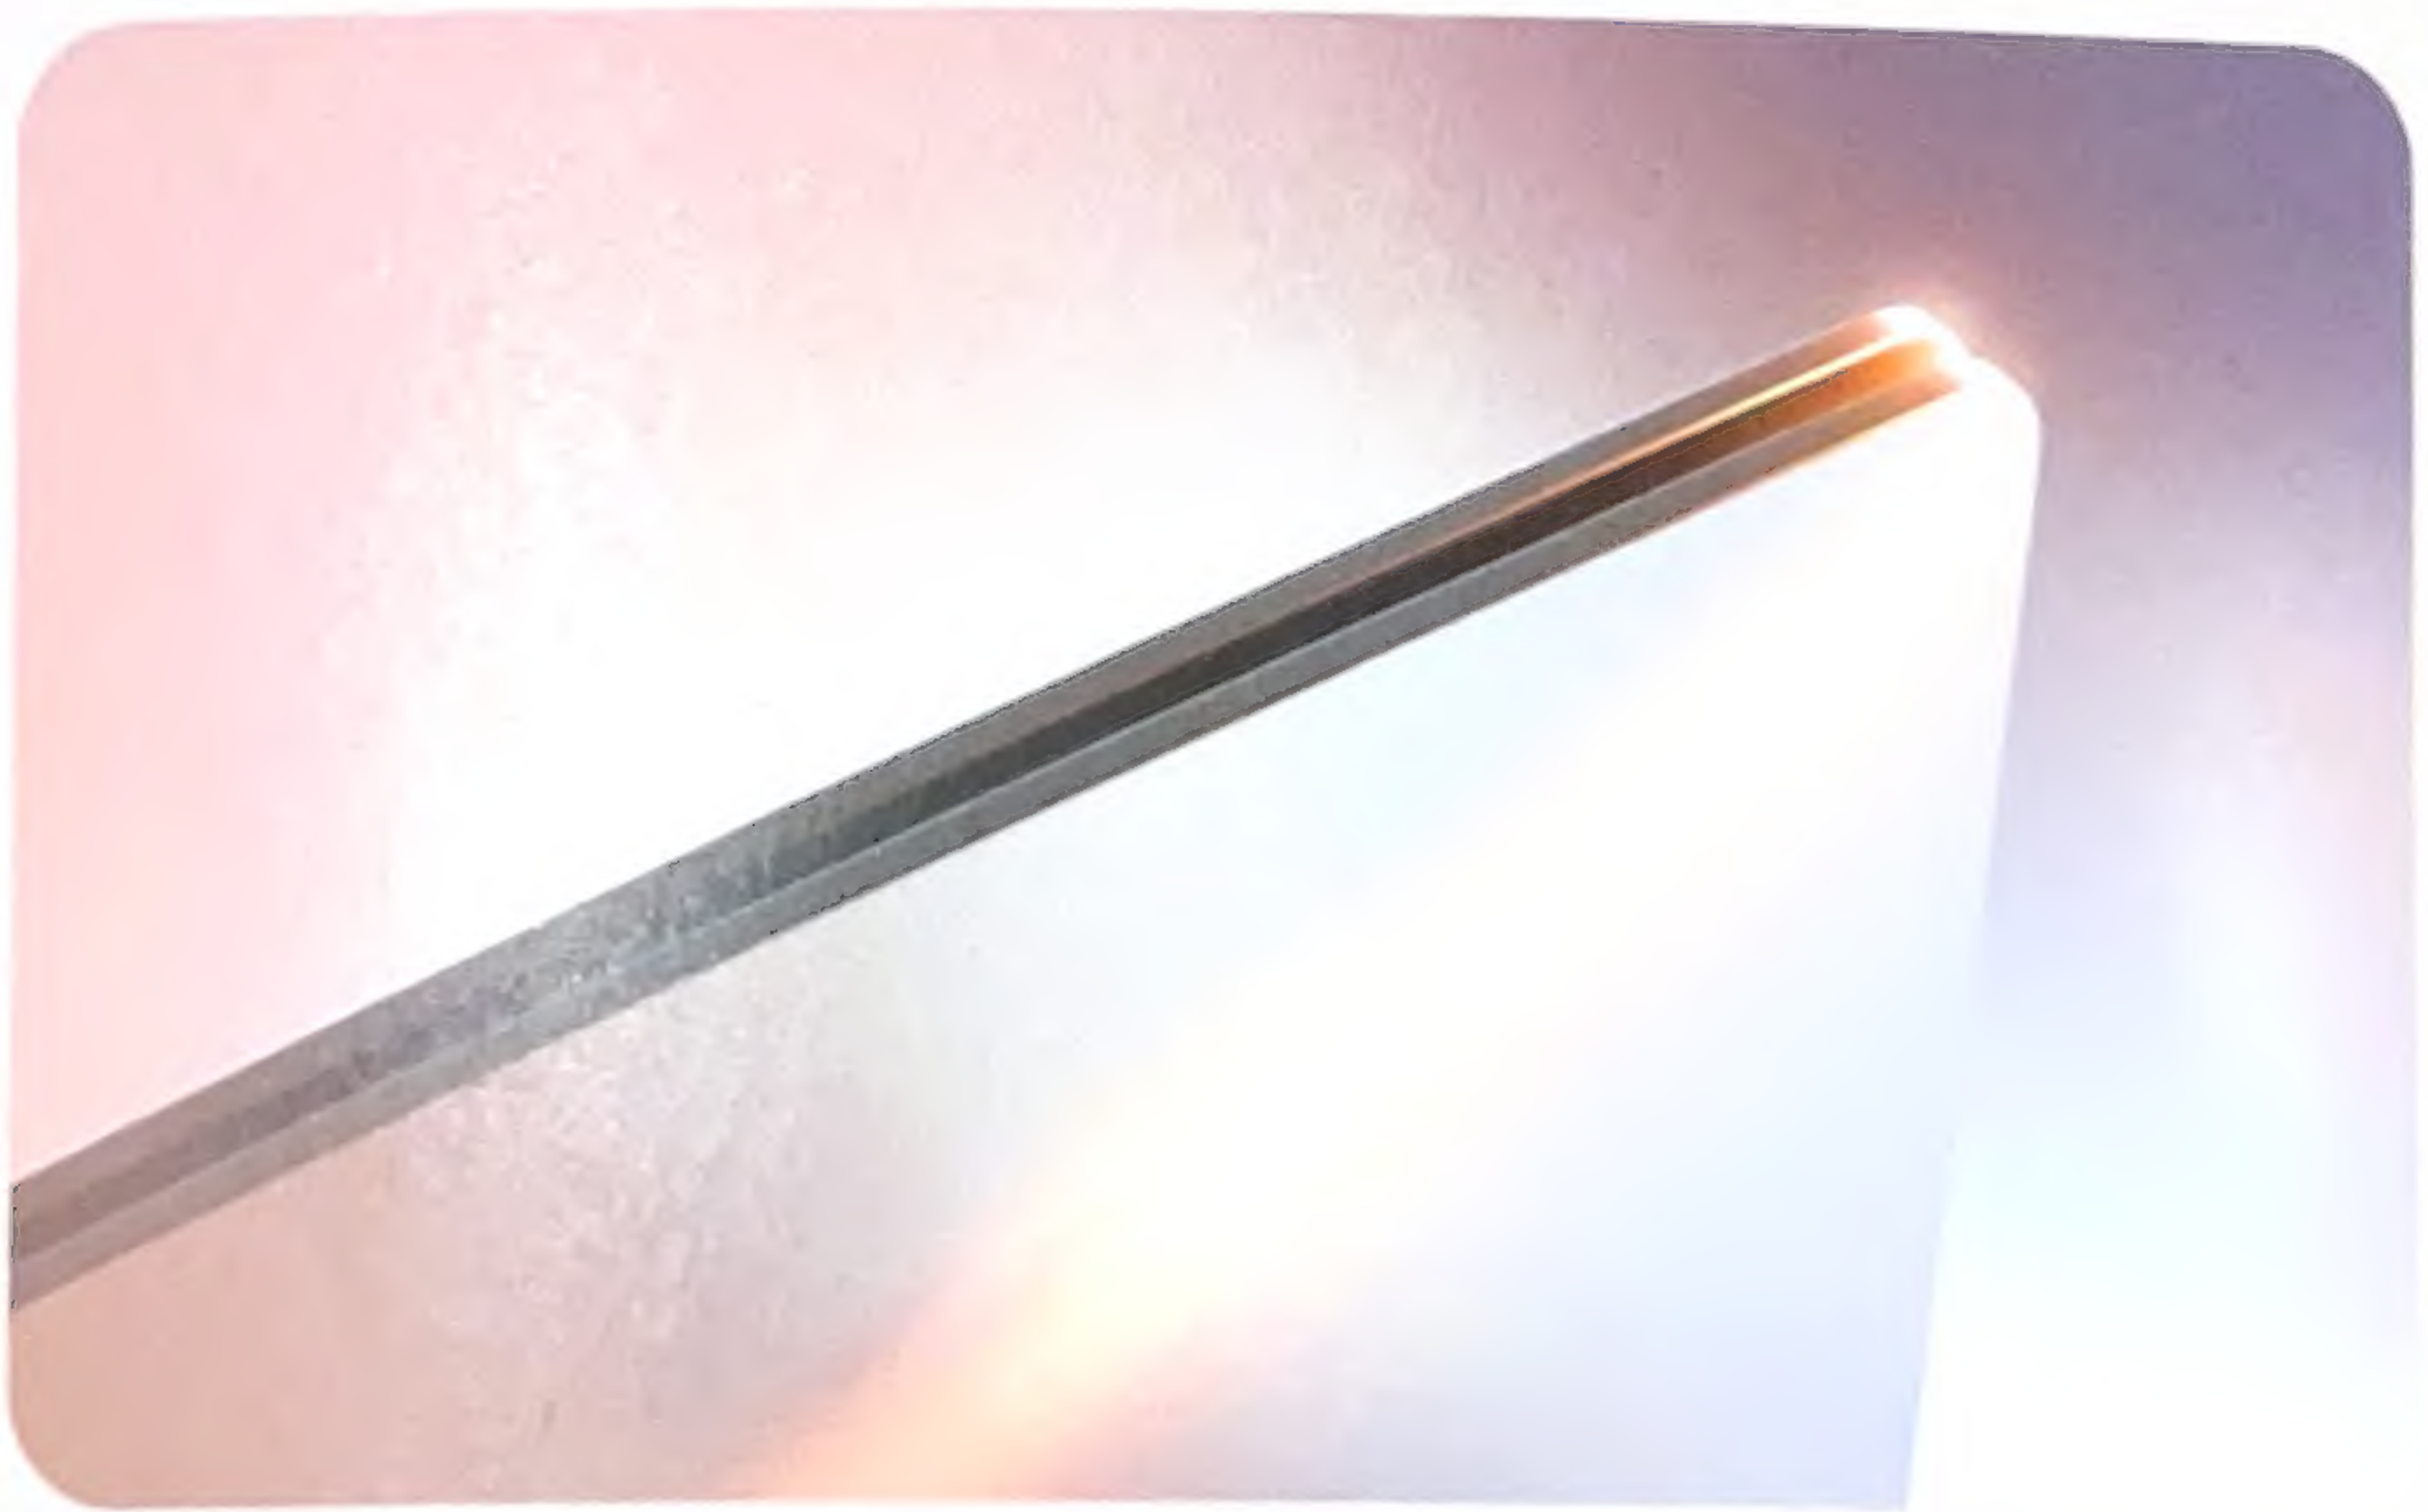

Why follow when you can set the pace? With an NPU on the Snapdragon X Elite processor, you'll have 45 trillion operations per second to work with. Now that's a power move.

## All day. All night.

What is power without endurance?  
With all day battery life, you won't just  
be faster than air - you'll be lighter too.\*

## Built in peace of mind

Uniquely designed for secure AI performance.  
Copilot+ PCs lock down your privacy and data  
to safeguard your most sensitive information so  
you can be in control of protecting what's yours.

\*Battery life varies significantly based on device, settings, usage,  
and other factors.
